ACADEMIC PUBLICATIONS	<p><i>Procedural Sovereign Distinction</i>, 57 VAND. J. TRANSNAT’L L. 469 (2024). Civil procedure sets different rules for foreign sovereign and foreign private defendants in U.S. courts. Ostensibly, the reason for distinguishing between these defendants is grounded in the nature of sovereignty. However, many procedural rules have lost track of the concept of sovereignty, creating a mismatch between the justification for the distinction and the way it’s applied. In this Article, I argue we should at least acknowledge this mismatch exists, and we should consider revising our procedural rules to promote the value of coherence and justification in law.</p>

Culpability in Atrocity and the Role of Complicit Observer, 37 TEMP. INT'L & COMP. L.J. 11 (2023).

Atrocity crimes are often associated with an aesthetic of horrific spectacle, the criminal nature of which is deemed intuitively recognizable. This invited symposium contribution on Randle DeFalco's *Invisible Atrocities* (CUP 2022) argues culpability as imagined by the observer is an important and overlooked dimension of the so-called "atrocity aesthetic." It is the sense of our complicity being intolerable that distinguishes the atrocity aesthetic—and atrocities from "mere" tragedies—rather than the spectacular.

The Sovereignty of Personal Jurisdiction

A familiar concept from political theory can help end the longstanding debate over the source of constitutional limitations on state courts' personal jurisdiction. Combining current doctrine's emphasis on party authorization with a differentiation between external and internal sovereignty reveals that sovereignty is central here—but only internal sovereignty. Moreover, internal sovereignty is effectively coterminous with individuals' liberty. Focusing on liberty, rather than sovereignty, would allow us to retain the relevant set of considerations while doing away with a debate that has been the source of seemingly endless frustration.

Sovereignty as Illegality

U.S. foreign sovereign immunity law and the associated "restrictive" theory of immunity paint a troubling image of what it is to be sovereign. Current doctrine's expressive content suggests that sovereignty is either a mess or a monster. Either states' conduct can be simultaneously sovereign and not, or the concept of sovereignty is intertwined with the right to abuse individuals and violate international law. This draft Article calls for urgent reform based on a rethinking of why sovereignty matters and how it relates to the question of immunity.
